

**REMS ROS P 35 / ROS P 35 A / ROS P 42 /
ROS P 42 PS / ROS P 42 S / ROS P 63 P / ROS P 63 S**

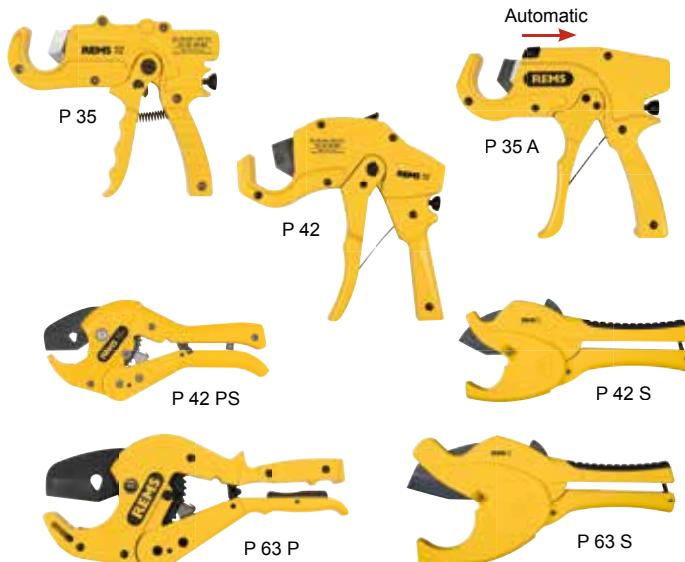

- Sturdy aluminium design.
- Replaceable, specially hardened blade.
- For single-hand operation. Effortless working through power transmitting ratchet feed.
- Quick reverse saves time and effort. REMS ROS P 35 A with automatic quick reverse after completion of cutting.
- Right angle, burr-free cut through exact pipe support and guided blade on both sides.
- Chipless cutting – no chips remaining in pipe.

Supply format

REMS ROS P. Pipe shear for plastic pipes and multi-layer composite tubes.
With blade. In blister pack/in box

P 42 S with quick reverse	42 1 $\frac{5}{8}$ "	291010
P 63 P with quick reverse	63 2"	291270
P 63 S with quick reverse	63 2"	291290

A close-up photograph of a person's hand holding a yellow KAPRO pipe cutter. The cutter is being used to cut a grey PVC pipe. The cutter has a black handle and a yellow body with the brand name 'KAPRO' printed on it. The pipe is held in place by the cutter's jaws, and the blade is visible as it cuts through the material.

Robust quality tools for clean, fast pipe cuts.

Plastic pipes $\leq \emptyset 75 \text{ mm}$
 $\leq \emptyset 2\frac{1}{2}''$

REMS ROS P 75 P

Robust steel version for rugged conditions and long life, with end stop for powerful engagement, also ideal for thick-walled plastic pipes.

Rough, non-slip handle for good grip.

Replaceable, specially hardened blade.

Fast, easy operation through guided ratchet on both sides and fine-toothed ratchet gear, specially hardened.

Right angle, burr-free cut through two-point pipe support and guided blade on both sides.

Chipless cutting - no chips remaining in pipe
