

## CONVENIENT.

Convenient marking on the head makes it easy to pick the right profile quickly.

## EXTREME.

For use under extreme conditions, the DRALL<sup>+</sup> is also available with a metal impact cap.

## PRACTICAL.

The black handle component made of soft, elastic thermoplastic elastomer (TPE) and the special shape of the handle means DRALL<sup>+</sup> screwdrivers fit particularly snugly in the hand.

## ROBUST.

The core is made of high-grade knock-resistant polypropylene (PP). The tang is firmly anchored in the core to allow force to be transferred through it.

## INDIVIDUAL.

The four handle sizes for the screwdrivers are designed specifically to match the drive profiles.

### **DRALL<sup>+</sup> is available for the following screw-head profiles**

	Slotted
	PH cross-head
	PZ cross-head
	TORX <sup>®</sup>
	TORX <sup>®</sup> Tamper Resistant with a central bore
	Hexagonal
	TORQ-SET <sup>®</sup>
