

Cleaners and Degreasers

Cleaner S

Cleaner and degreaser for all metals, glass, ceramics and many plastics

WEICON Cleaner S removes oily and greasy soiling from all metals as well as from ceramics, glass and most plastics. It can, however, attack the surface of thermoplastics such as PVC, Plexiglas, polystyrene and single layers of paint. WEICON Cleaner S evaporates quickly and, in contrast to conventional thinners, without leaving residues. It can be used for cleaning and degreasing before priming and painting, for cleaning machine parts, or before other WEICON products are applied to surfaces where a greasy underground would impair their effect.
